MARCHETTI

Un tratto semplice e funzionale, utilizzando il led all'interno di tubi di policarbonato bianco latte, senza avere nessuna ombra all'interno degli stessi con parti in metallo tornito con finiture attuali ed eleganti. Tubo in metacrilato illuminato uniformemente dal led.

A simple and functional stretch, using special led inside milky white polycarbonate tubes, without having any shadow inside them. real 360° of pure light, the metal parts are made with precious finishes. Methacrylate tube uniformly illuminated by led.

## MATERICA

Materica è una collezione di elementi scultorei da cui emerge con decisione la passione per la materia prima, il cemento. Il cemento declinato in un raffinato gioco di volumi e colori. Una vera e propria sfida tecnica, una scelta progettuale estrema e innovativa per regalare un istante di inaspettata magia e leggerezza. La collezione è composta da sospensioni alimentate con Led Line.

Materica is a collection of sculptural elements from which the passion for the raw material, cement, emerges decisively. Cement declined in a refined play of volumes and colors. A real technical challenge, an extreme and innovative design choice to give an instant of unexpected magic and lightness. The collection consists of suspensions powered by Led Line.

**PYTON REV S150:** 1x E14 LED

Morbido e armonioso nelle movenze ma forte ed elegante nella struttura tubolare sapientemente lavorata con un processo laser unico nel suo genere, che crea un movimento sinuoso arricchito con degli inserti in pelle nera...che diffonde luce con una sfera bianco latte satinata. Sospensione realizzata con un tubo metallico intagliato a laser che ne permette un movimento sinuoso. Diffusore in vetro satinato bianco latte. Illuminazione e14 led.

Soft and harmonious in the movements, but strong and elegant in the metal structure wisely worked with a unique laser process...this sinuous movement enriched with black leather bracelet is illuminated with a satin milky white sphere. Suspension made with a laser-cut metal tube that allows for sinuous movement. Milk white satin glass diffuser. E14 led lighting.
